

Introduction to Dalian Medical University

Founded in 1947 as Guandong Medical College, [Dalian Medical University](#) (DLMEDU) has developed into a multi-disciplinary medical university located in the coastal city-Dalian. As the biggest harbor city in Northeast China region, Dalian is an important international shipping center, logistics center and financial center in Northeast Asia. Owing excellent environment and temperate climate, Dalian was firstly listed as the “Best Tourist Cities” of China. In 2009, it was recognized by UNEP and awarded the highest prize of international garden city by IFPRA.

[DLMEDU](#) is the largest medical university in China which enrolls the most international students, as much as 1300 from 82 countries in degree programs. It occupies an area of 373 acres with building area of 94 acres and contains 22 teaching and scientific research institutions, 5 supplementary teaching organizations, 1 branch college, 1 affiliated medical school, 9 affiliated hospitals (2 are directly affiliated hospitals), over 100 teaching bases, 1 state level International Scitech Cooperation base, 1 ministerial level research institution, 1 ministerial level lab, 10 provincial level key labs, 1 provincial level engineering technology research center and 6 provincial key labs for universities.

The MBBS program for international students in DLMEDU was set in 2004 and in 2007 the MOE declared it as the qualified university to offer English-taught MBBS program. The program is open in each spring and autumn, with the same duration and tuition fee. Besides, it can be taught in English and Japanese upon students’ choice. According to the framework agreement on degree accreditation between MOE of China and other countries, the degree awarded by DLMEDU is recognized in 31 countries. In addition, the university also signed agreements with medical associations in Thailand, Ghana, Sri Lanka.

The university has carried out the exchange and cooperation in domestic and abroad widely. Till now, it has established cooperative relationships with University of Sao Paulo Medical School in Brazil, The University of Adelaide in Australia, the Ohio State University in USA, the University of Groningen in Holland, University of Toyama in Japan, University of Oslo in Norway, BaFuLuoFu State Medicine University in Russia, Dnepropetrovsk National University in Ukraine etc 99 universities or scientific institutions in 38 countries and regions.

Program Description

The curriculum planning shall include the following three parts:

- (1) Chinese culture and natural science courses, including an overview of China's culture, Chinese language, Chinese medical terminology, mathematics, physics, chemistry, biology, physical education, etc. It is required to pass the examinations of these courses respectively.
- (2) Basic medical sciences, behavioral science, humanities, social science and medical ethics, preventive medicine and clinical medicine. It is also required to pass the examinations of these courses respectively.
- (3) Internship. The institutions shall meticulously organize the reasonable arrangement of the internship. The duration of the internship is one year (at least 48 weeks).

In order to facilitate their learning and life in China and contact with patients in their medical practice, the Chinese language shall be a compulsory course during the whole undergraduate medical program in English for international students in China.

Internship and Career

The internship starts from the second semester of the 5th year with duration of 1 year (at least 48 weeks). Students can choose to do it in China, their home country or any other country. The tuition for the internship year is still RMB 32,000 per year. When doing internship in China, students can live in campus or rent house by themselves.

If students choose to do internship in China, there's no requirement on HSK Level, but the university will provide Chinese tutoring and organize Chinese Language Test to assure their language ability. The internship will be taken in the two affiliated hospitals of DLMEDU, which are provincial hospitals of Class A, Grade III, with a total of 3,000 beds and 118 clinical teaching bases. Both of them are up to leading domestic level in MDCT coronary artery imaging, Catheter ablation of af in treatment, Combine traditional Chinese and western medicine treatment of acute abdominal pain etc.

However, if students want to do the internship in other country, [DLMEDU](#) need to do an qualification evaluation on the chosen hospital.

And, students should come back to the college in the second half of the 6th year to complete their graduation thesis and take the final examination on Theory Test and Clinical Evaluation.
